

Yalp Sutū

The Interactive Football Wall

What is the Yalp Sutu?

The Yalp Sutu is an **Interactive Football Wall**, containing impact-sensitive panels which measure and react to ball impact.

Vivid LED lights and audio speakers give players feedback and encouragement on their performance. At least 10 different games are included as standard.

Yalp Sutu is as entertaining as video games, yet fun, healthy and socially constructive like outdoor play.

The Yalp Sutu is intended for - and loved by all ages. This interactive football wall is solely developed by Yalp.

Sports Field Integration

The Yalp Sutu can be placed as a free-standing product, but also be integrated into a sports arena (MUGA), or any other type of boarding. Discuss the options with your local dealer, but know **you can design the size of the courts, goal placements, lines, baskets and much more.**

Yalp Sutu in an existing sports arena

Does your borough or area already have a sports arena? Give it an upgrade by placing a Yalp Sutu in the existing fencework. For a considerably lower budget, you will get an entirely new cage, and **the community will get new impulse towards exercise and physical health.**

The Games:

10 games are pre-installed - and more are developed ongoingly. These are uploaded to your Yalp Sutu automatically as they get released - **FREE** of charge! Here are a few examples:

Color Sutu: Conquer your opponent by turning the wall into the color of your choice (red or green)

Time Sutu: Hit all panels before the time runs out! Time speeds up with every round.

Speed Sutu: Shoot as hard as possible. On the wall your speed will be shown in km/h. Many find it the most addictive game!

Shape Sutu: Shoot out the panels as they light up. Challenge yourself by shooting from further and further away. Who has the best shot?

Spot Sutu: Hit the lit target before it empties and set a score. Time speeds up with every round.

Penalty Sutu: Take penalties. Switch between keeper and shooter and win this knock-out game!

Technical Details

3G-Internet Connection - Every Yalp Sutu has a built in 3G-Internet Connection, so you can remote control your own device. Think volume-settings, (automatic) On / Off times, and even advanced usage statistics. Also, this way Yalp can service your device from a distance, and automatically transfer new games.

Vandalism-resistant and all-weather proof

- The Yalp Sutu is specifically designed for heavy-duty outdoor use. Of course this means it is all-weather proof and vandalism resistant. For instance, the transparent panels are made of a material similar to bullet-proof glass.

Power usage - When played, the Yalp Toro uses about 60 Watts. This is comparable to a light-bulb. The only power source you need is a regular power socket.

Speed Radar - The Yalp Sutu contains a high quality speed radar, which measures impact speed. This allows for highly competitive game play, and it to be used as a **professional football training tool** as well.

Further information - Much more information about the Yalp Sutu and the other Yalp Interactive playsets can be found on our international website. This includes an amazing selection of inspiring pictures and videos:
